Name : kamal ragab kamal

Id :202202075

Department : it

Band : two

Project : shoes store

The project is shoes store

In the project you can buy all type of shoes and I explain that at the web site .

First in the navigation bar we have logo link and image and search bar and four links there are men shoes and women shoes and there are contact us and home the usage of home that if you stand in man or women page I can back to home from this link or button .

second we have in right a image and left we have a paragraph words after words we have button shop here if you focus in it , it will drive you to shopping and we have after that to links linked by id tag if you focus of it will go in trending shoes or discounting shoes meaning the shoes have a discount and between the links we have face book and twitter and instagram and what's app links that of the shoes store media .

third if you clicked in trending button will go to the page of trending that have a button add to cart if you clicked if it will drive you at payment page for paying , the same thing in the discount button if you clicked at the add to cart button will go to payment page .
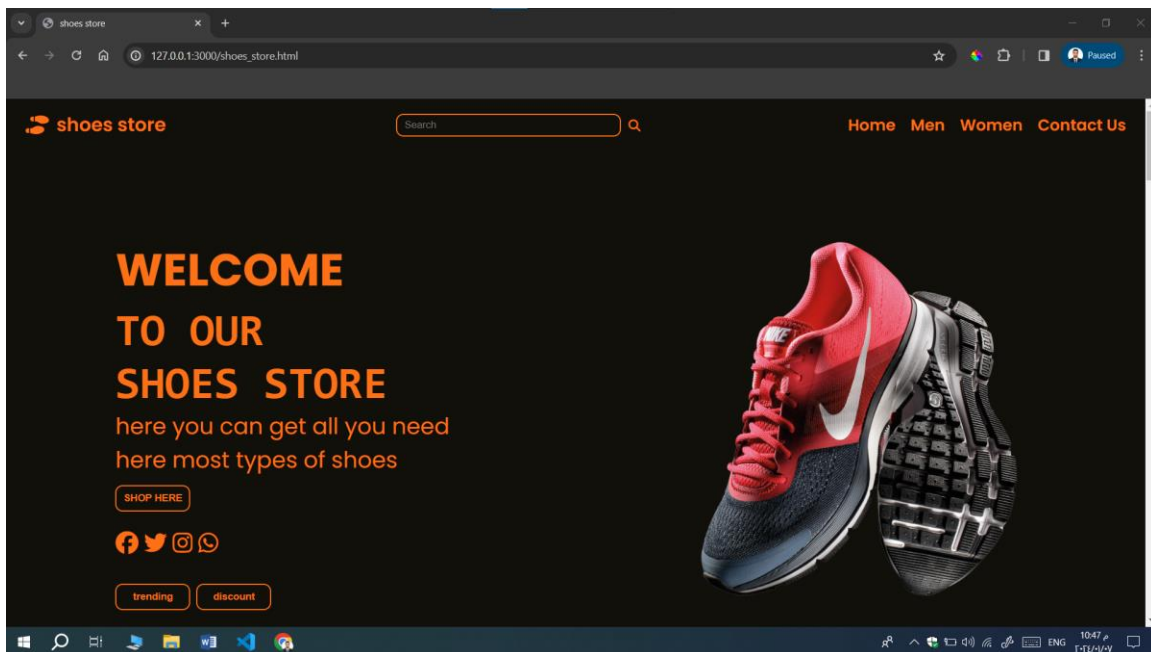

fourth if you clicked at the men link in the navigation bar will go to man page there have all types men shoes at the side of any product there is add to cart button if you clicked at it will go to payment page to paying the same thing at the women page .

finally we have contact us page if you clicked at it will drive you at the page
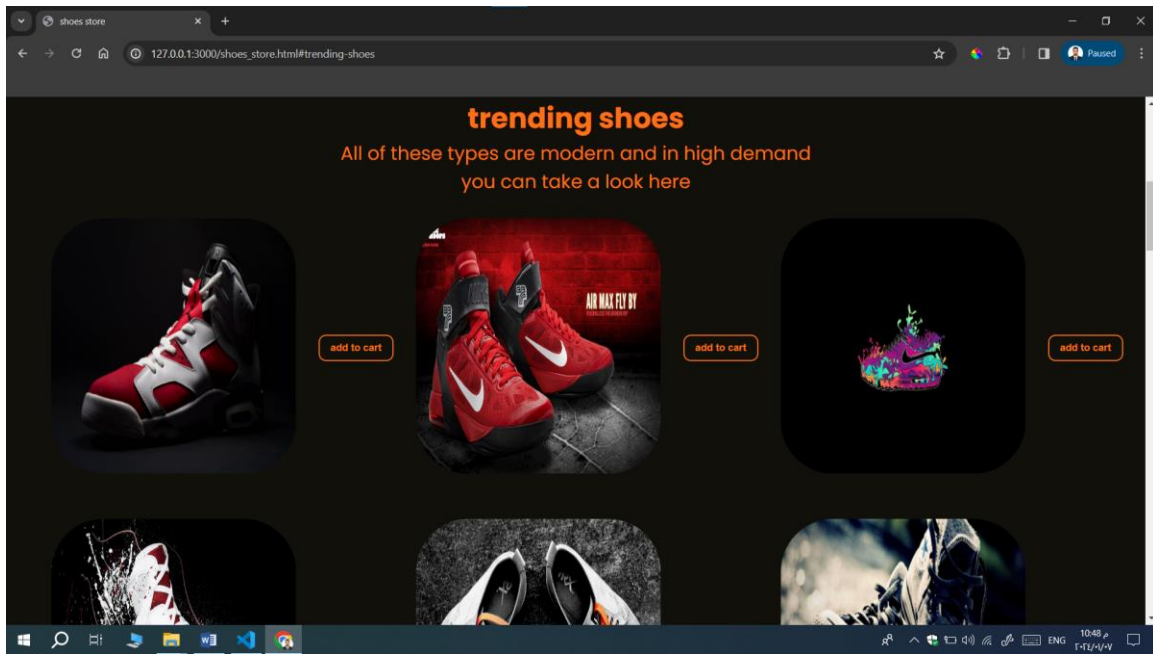

this page have the address and time work and our email and phone number of us and you can send us a massage and you can upload your name and email and the massage it will come to us .
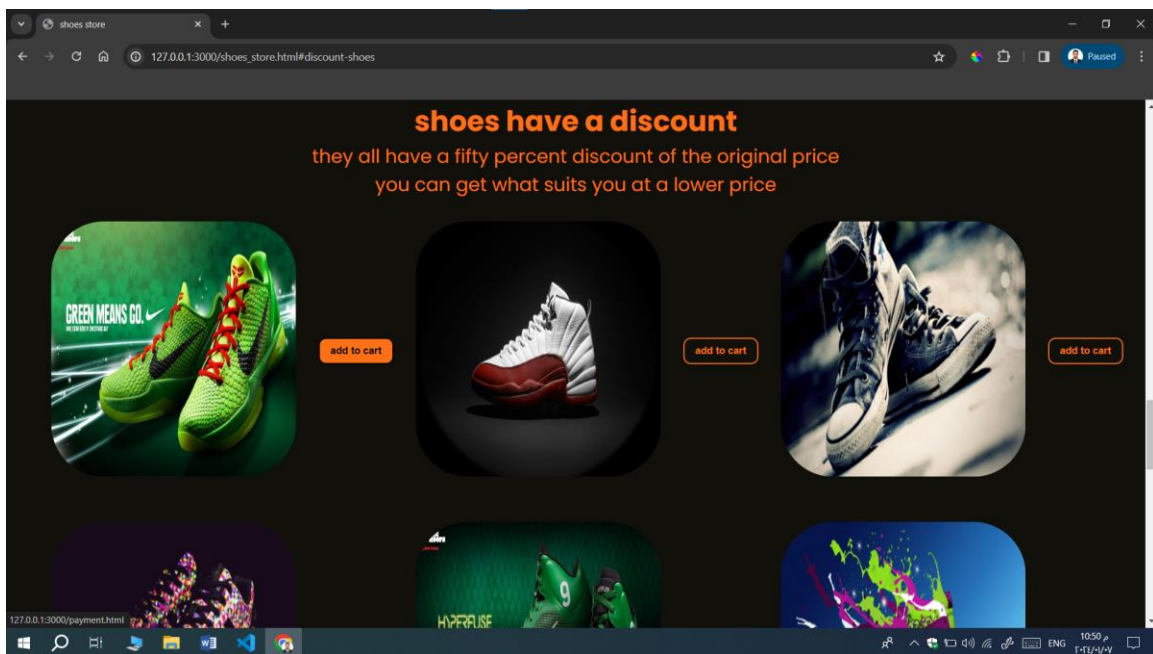

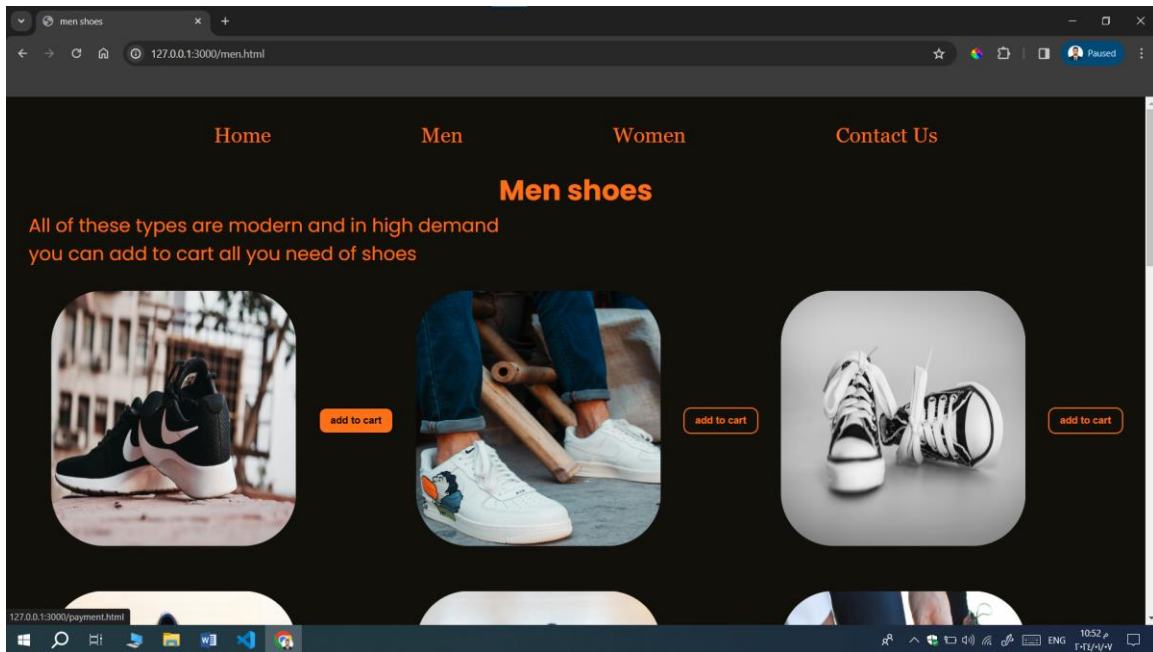

photos form the site
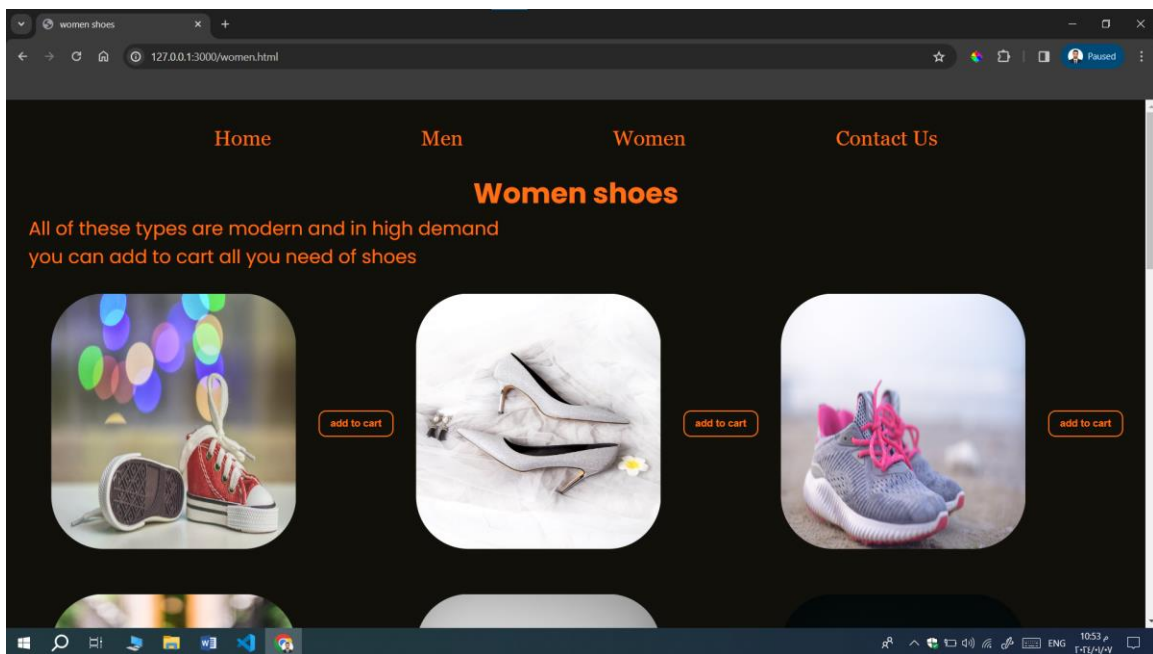

this is home page
